

# DEVOPS TOOLKIT

---

SENIOR PROJECT | CS 499 | TEAM DEVOPS

Thank you for taking the time to test our DevOps Toolkit. With the documentation that we have provided to you, we ask that you attempt to complete the tasks listed below.

| TASK   | COMPLETED | UNABLE TO COMPLETE |
|--|-----------|--------------------|
| Install all required applications on your local computer |           |                    |
| Download the hosted vagrantfile                          |           |                    |
| Use Vagrant to create a development environment          |           |                    |
| Log into the newly created Development Environment       |           |                    |
| Setup GitHub with Travis CI                              |           |                    |

| YOUR NAME | WHAT CS COURSES ARE YOU CURRENTLY ENROLLED IN? |
